Dr Thierry BROS

Senior Analyst European Gas and LNG Markets
Société Générale

Thierry Bros was appointed Senior European Gas and LNG Analyst for Société Générale's Commodities team in 2010, having joined the group in 2007 as a Senior Financial Analyst to provide recommendations on listed pan-European gas stocks and in-depth research on gas issues. Thierry covered the gas chain from upstream to downstream with BG Group, Centrica, Enagas, Gas Natural, Gazprom, GDF SUEZ and Snam.

From 2002 to 2007, Thierry was a Senior Oil & Gas expert at the French Ministère de l'Economie des Finances et de l'Industrie, where he represented France on oil markets and advised on emergency issues at the International Energy Agency (Paris), the European Commission and the Energy Charter (Brussels). His responsibilities included providing global oil and gas industry reviews to senior French officials and negotiating European directives. As a gas specialist, he reviewed the regulations governing the opening up and liberalisation of the French gas market and supervised the Contingency Gas Plan.

Prior to that, Thierry was, for six years, Head of Internal Communications at IFPEN, an oil & gas research institute. Since 2011, Thierry has also regularly chaired sessions at the United Nations Gas Centre (Geneva).

Dr. Bros is also a visiting faculty professor at several universities and a speaker at international conferences on gas-related subjects. He is the author of the book *"After the US shale gas revolution"* published, in 2012, by Editions Technip.
